ITINERANT MASTER'S IN ARCHITECTURE AND MUSEOGRAPHY FOR ARCHEOLOGY
STRATEGIC DESIGN AND INNOVATIVE MANAGEMENT OF ARCHAEOLOGICAL HERITAGE

MASTER'S DEGREE PROGRAM 2022_23

Article 1: Formula

The “**Itinerant**” Master’s Degree Program in “Architecture and Museum Design for Archeology – Innovative Design and Management of Archaeological Heritage”, is offered by the **Accademia Adrianea di Architettura e Archeologia Onlus** (a non-profit, European educational organization). It is organized around a unique educational formula that includes multiple sites in different locations where individual design workshops are held.

Each workshop is methodologically autonomous, relating to the difference in approach in establishing a site-specific relationship between museum design, architecture and archeology. The master’s degree program is composed of ten-eleven learning experiences situated in an equal number of important and prestigious international locations.

Article 2: Description

In the context of an ever more demanding and inclusive program of sustainable design in the management of archaeological heritage, and in support of the political decisions maximizing the cultural offerings on the part of the institutions that are charged with their tutelage, the **Itinerant Master’s** in “*Architecture and Museum Design for Archeology – Innovative Design and Management of Archaeological Heritage*” is conceived as a program of study for specialization and professional development. Its goal is the creation of competence, both specific and interdisciplinary at the same time, such as to facilitate the development of an operative, analytical, design and management relationship between architects and archeologists. The key hinge in such a relationship is Museography, or Museum Design; a design discipline who’s goal is the improved awareness of, and utilization of cultural heritage, and in particular, archeological sites.

Article 3: Professional Objectives:

The objective of the **Itinerant Master’s** is the formation of a professional with interdisciplinary competencies - architecture, archeology, museum design and management. This professional will operate in the sector of cultural heritage management, as designer, director, consultant, or as in-house expert, with the expertise for design, scientific, and management responsibilities. Based on the formative instruction of origin, our graduate will apply the new technologies and techniques to improve his/her capacities and operate in a contemporary context.

In particular the Master’s program is intent on forming designers of visit paths in archaeological sites, museographic professionals, management personnel for museums, foundations, and other institutions operative in the architectural, archeological and cultural heritage sector.

Article 4: Formative Goals

The primary goal of the **Itinerant Master’s** is to provide a double registry of cultural and operative tools:

- a) the necessary tools for a considered understanding of the two disciplines museography and museology understood as a connection area, dialogue, interactivity and cooperation between architecture and archeology.
- b) technical tools that are required for an understanding of the processes of on-site measurement (laser scanning and cloud of points technologies for example), of simulation (3-D modeling, reverse modeling and rendering) and communication (computer graphics and web design).

The formative route will operate according to the principle of the exchange of data and dialogue of knowledge, such as to permit the creation of a common language between architects and archeologists.

The program looks to prepare designers capable of working for archeology, and to form archeologists, art historians, and preservationists that understand the processes and the methods of museography, of physical design and of coordinated communication design.

Article 5: Target Audience

Access to the Itinerant Master's is limited to those holding a certificate of participation in the Piranesi-Prix de Rome 2019 edition, or those are registered in a Bachelor's Degree, Laurea Triennale, as well as Magistrale or Quinquennale) in architecture, engineering, industrial design, awarded by institutions that support the Premio as listed here below:

University of Architecture and Urbanism "Ion Mincu" of Bucharest,
Universitat Politecnica de Valencia,
University of Trento, Scuola di Ingegneria e Architettura

Holders of certificates of individual workshops promoted by the Accademia Adrianea and held in Italy or abroad are also admitted.

Article 6: Location and Organization of the Didactic Operation

The administrative center of the Accademia Adrianea is in Via della Gatta 6, Rome Italy, 00186.

The course/workshop sites available for the 2022-23 academic year are available in the following table.

The beginning of institutional activities is set for early December 2021. The presentation and discussion of the master thesis will take place on or before March 2023.

Teaching is organized in a series of thematic workshops, organized according to the calendar of workshop/courses presented below for the academic year 2022_23. Some workshops will also be carried out remotely on an international sharing platform.

The final thesis will focus on:

- An architectural project for archeology contextual in a competition reserved only for those enrolled in the Master (Paola Mattioli Award).
- An in-depth design study relating to one of the locations present in the 2022-23 itinerary, or historical, critical or theoretical methodological.
- A project developed in parallel and in synergy with the specialist degree thesis.

Art. 8: Cancellation / Waiver of the Participant

In the event of cancellation / renunciation after the Master has begun (December 2021), the Participant cannot claim the return of the amount already paid to the Academy, according with the provisions of the previous art. 7.

However, the organizer may return to the Participant a variable share between 75% and 100% (at the sole discretion of the Academy itself, also taking into account the reimbursement policies of the hotels) of the amount already paid by the Participant as hotel accommodation, for an upcoming but not yet delivered workshop in which Participant no longer intend to participate. The cost of transport (airplanes, trains, cars, etc.) possibly already incurred will remain entirely at the Participant's expense, without prejudice to any insurance reimbursements in his favor.

Article 9: Master's Degree Diploma

The Master's Degree is conferred upon the students who successfully complete at least four (or five for those referred at point 4 and 5 of Art 7) of the ten workshop/courses as well as an individual study that is presented successfully as a final Thesis.

For those who did not participate in the Piranesi-Prix de Rome 2021, the minimum number of workshops is five (or four if one of them will be the Piranesi Prix de Rome 2022).

Of the aforementioned workshops, three (or four for those referred to in points 4 or 5 of the previous art.7) must be carried out in presence and one can be carried out remotely (optional choice), according to the new procedures included in this updated announcement at Art.6).

The Thesis, along with the results of the individual workshop (collected in a summary document), are to be presented and defended at a public event to held at the end of the program. Dignitaries in the field of architecture, archeology, research and technical professionals as well as institutional managers in related fields will be asked to attend this public event.

The degree will be conferred upon those students who are in good standing administratively, who have completed the course work, and who successfully present and defend their Thesis.

Article 10: Internships

At the end of the First Semester of this updated calendar (at June 2022), each student, on the basis of his/her relative grade standing, may request an internship period lasting between one and three months, at the institutions managing cultural heritage with which the Accademia has agreements. These internships will be discussed with the students individually to assure a fit between the students' expectations for professional placement and the available internship possibilities.
